

# LEGO STOVE ASSEMBLY

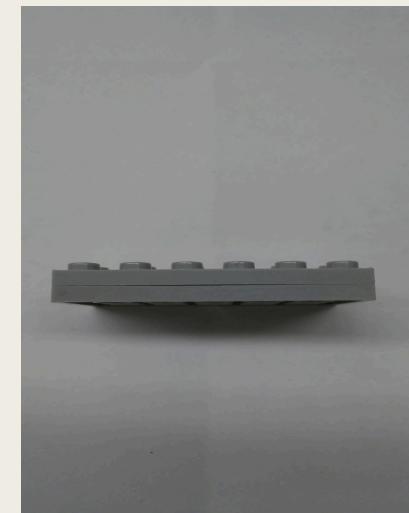

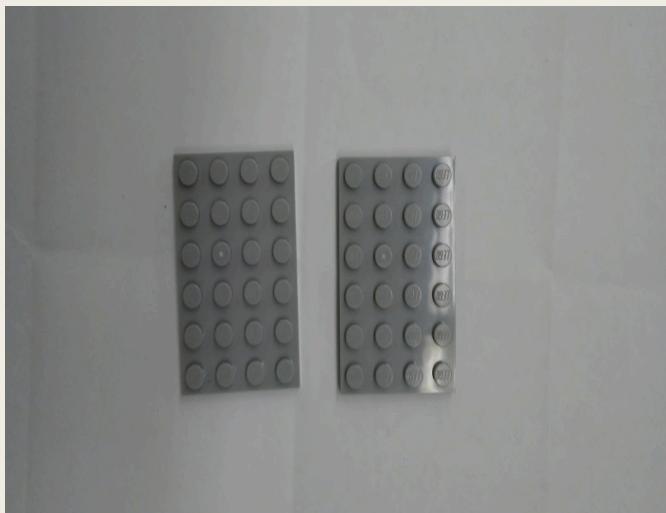

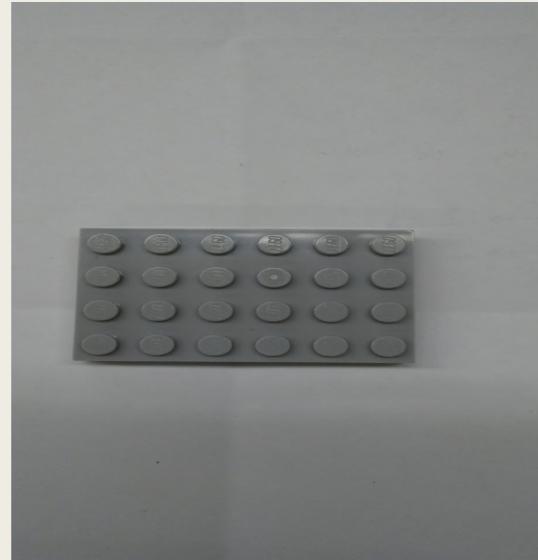

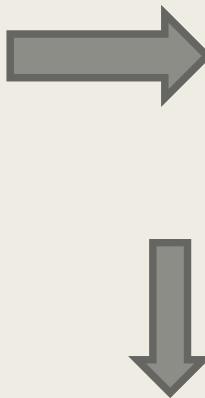

# ■ Pieces

- 2 grey 4x6 platforms
- 4 white 4x2 blocks
- 4 red single dots
- 1 yellow angled piece
- 2 yellow corner angle pieces
- 4 grey single dots

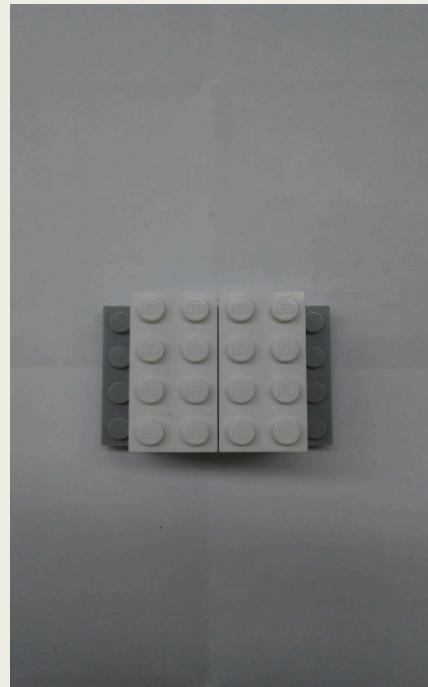

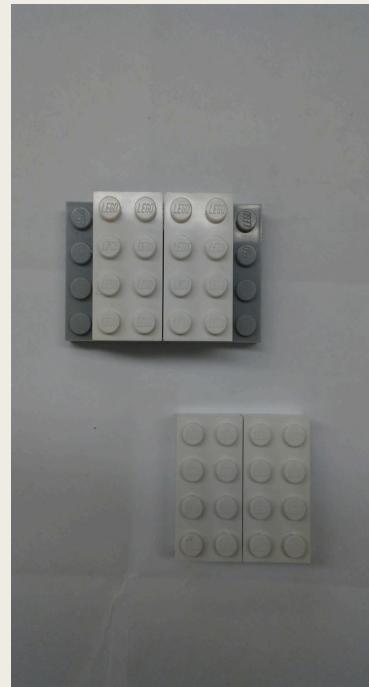

# ■ Instructions

Step 1. Place grey platform so the Lego notches run 6 across horizontally. Then stack the second grey piece directly on top in the same way.

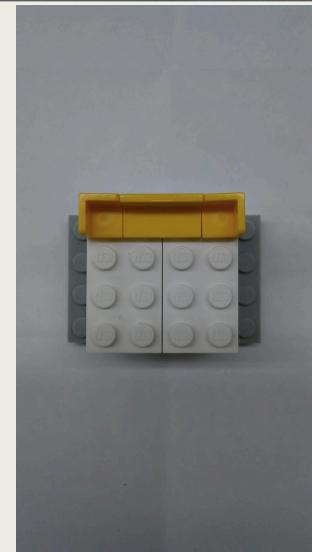

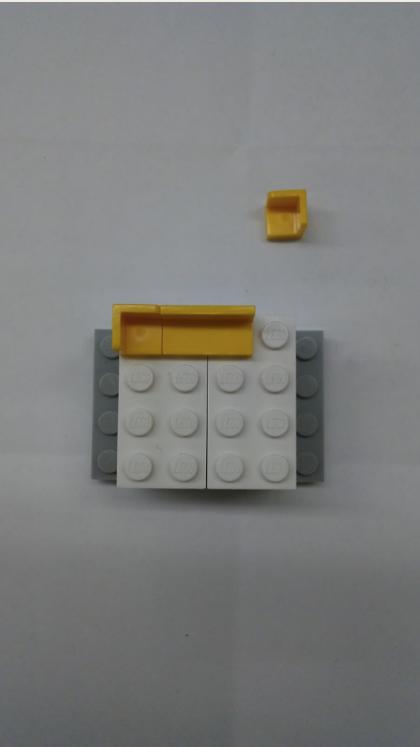

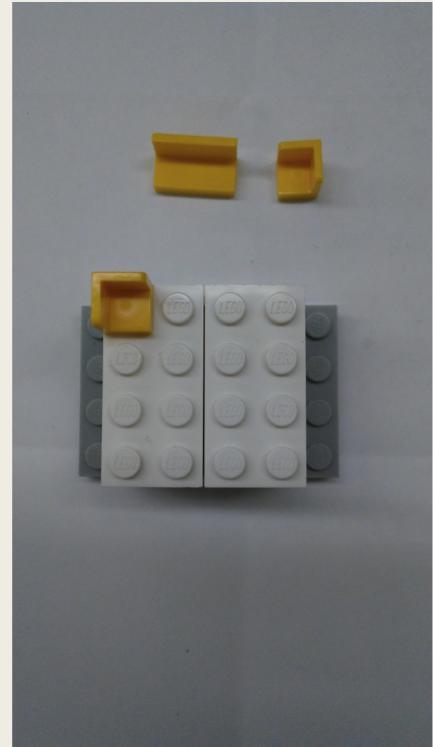

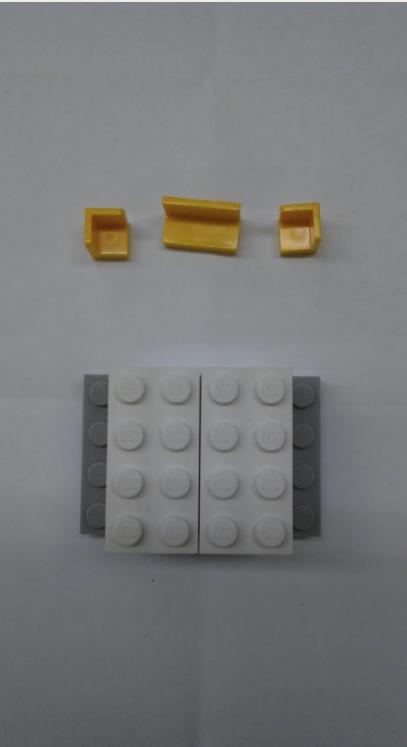

**Step 2.** Place 2 white 4x2 blocks  
on top of the grey platform's  
middle sixteen notches. Then  
stack the remaining two white  
blocks directly on top facing the  
same direction.

- **Step 3.** Place one yellow corner angled piece on top left corner with the angle facing out.

Then place the longer yellow angled piece on the two notches to the right of the corner piece. With the angle lining up with the corner angle.

Then place the other yellow corner angled piece to the right of the longer yellow middle piece with the angle facing out.

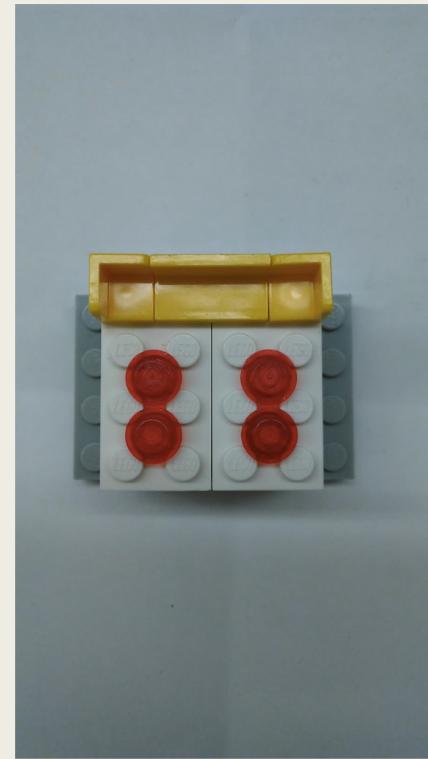

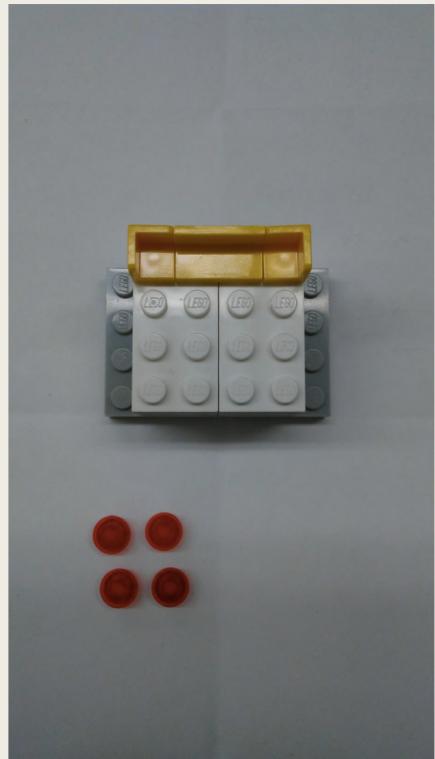

■ **Step 4.** With the four red dot

pieces, place them in the

middle of the top white 4x2

blocks.

- Step 5. Take the four grey dot pieces and place them on top of the red dots.
- Once the grey dots are on, your Lego stove is complete.
